

INTERNATIONAL SEARCH REPORT

International application No.

PCT/AU2004/001327

A. CLASSIFICATION OF SUBJECT MATTER		
Int. Cl. 7: A01H 1/04		
According to International Patent Classification (IPC) or to both national classification and IPC		
B. FIELDS SEARCHED		
Minimum documentation searched (classification system followed by classification symbols) See electronic data base		
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched See electronic data base		
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) WPIDS, Medline, Caplus, Agricola, Biosis, Google: woody, perennial, citrus, prunus, male steril?, homozyg?, breeding, hybrid, fruit breeding, fruit improvement		
C. DOCUMENTS CONSIDERED TO BE RELEVANT		
Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	Simmonds N. W. Principles of Crop Improvement. London: Longman Scientific & Technical, 1987, ISBN 0-582-44630-9, pages 230-234. see in particular Fig. 6.6	1-83
A	Werner et al (1997) 'Genetic studies in peach: Inheritance of sweet kernel and male sterility' J. Amer. Soc. Hort. Sci. Vol 122(2): 215-217 see in particular page 215 2 nd column, 2 nd complete paragraph; page 216, 2 nd column	1-83
<input checked="" type="checkbox"/> Further documents are listed in the continuation of Box C <input type="checkbox"/> See patent family annex		
* Special categories of cited documents: "A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent but published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published prior to the international filing date but later than the priority date claimed "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art "&" document member of the same patent family		
Date of the actual completion of the international search 9 February 2005		Date of mailing of the international search report 17 FEB 2005
Name and mailing address of the ISA/AU AUSTRALIAN PATENT OFFICE PO BOX 200, WODEN ACT 2606, AUSTRALIA E-mail address: pct@ipaustalia.gov.au Facsimile No. (02) 6285 3929		Authorized officer LEXIE PRESS Telephone No : (02) 6283 2677
